We will be appointing six board members for 2022. Regions 1 and 4 will each have one board seat available, and Regions 2 and 3 will have two seats available per region. Thereafter, we will be appointing four new board members each year, trying to keep the regions in balance to the best of our ability. If we do not receive any applicants that meet the requirements from a region, those seats will become at large appointments for that term. If at the end of a one year term, if you are unable to meet the requirements of the position, you will not be eligible for the second year of the term.
