

National Southdown Recognition Program

This record book is designed to help you compile records of your Southdown activities in one handy, easy-to-use format. It will provide a place for recording information needed when applying for the National Junior Recognition Program's Bronze, Silver and Gold Awards, and scholarships. In addition there is space for personal observation and notes.

It is suggested that you use additional pages in the record book to compile a scrapbook of pictures. These will illustrate your own development as an AJSA member and the development of your Southdown flock.

This record book can be useful as an educational aid as you keep track of your livestock enterprises. You are in no way required to complete all pages in this record book; nor are you limited to the guidelines contained within. Remember that the more you put into it, the more you'll get back!

REFLECTIONS

At the end of the year, take time to evaluate your breeding and show season. What were some highlights? What are things you hope to do differently next year? Consider what goals you want to set for the next year.
